

Elna basics, Jersey-Top

Difficulty level

Beginners - mediums

Sewing time

2 hours

© Elna International Corp. SA, all rights reserved

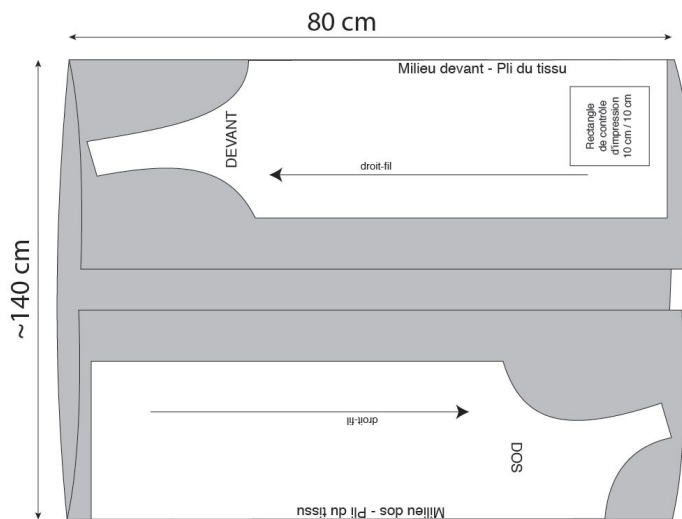

You will need:

- 80 cm of your color choice Jersey fabric (standard width: 140 cm).
- Thread of same color.
- The pattern you can find from page 3 to page 11.

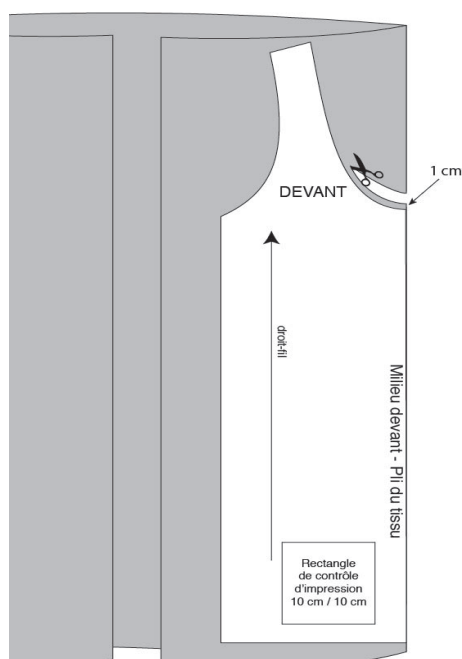

Recommended machines:

An elna overlock which is able to do the coverstitch (elna 745 / elna 845), or an elna overlock 664 / elna 664 Pro and the elna easycover.

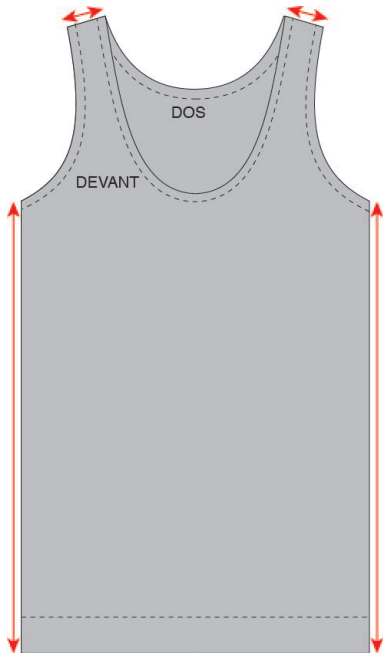

After ironing your fabric, place on it the pattern that you previously cut.

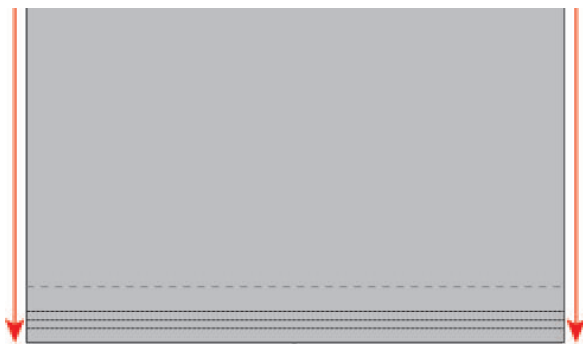

Cut the fabric with 1cm of seam allowances for the size 40-42 or without seam allowances if you want it smaller.

You can adjust the size by comparing the width with your own measurement and if necessary remove the sides, as indicated by the arrows.

With a Safety 4-threads stitch, sew together the both sides and the shoulders.
Fold all the hem (bottom, neckhole and armhole (1cm) and mark it with iron. Place some pins.

Sew the hems with the coverstich of your elna overlock-machine or with the elna cover-machine to finish your basic Top very nicely.
